The 4th Sector

Money can be a consequence of Impact

- **Community -** Impact for the better western society, fight back against anti family media
- **Cause –** Enable couples and families to heal rather than destroy themselves
- **Business -** Use an economic model that cuts the cost of divorce and counselling to drive for an impact and make it happen

The Cause

The family unit is under attack for commercial gain

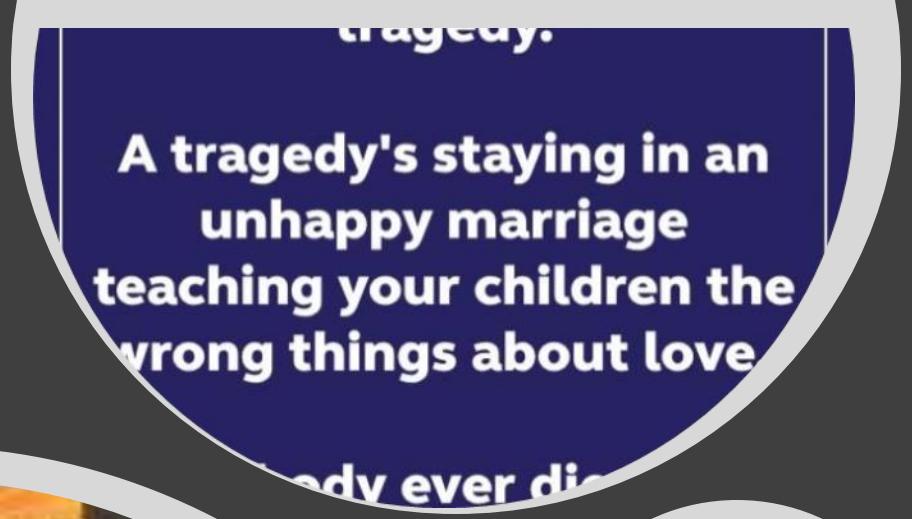
- By Lawyers & The Legal System
- By Social Media
- By A changed society seeing family values as “old fashioned” and “judgemental”

We want to provide an economic model that benefits from the family staying together provided it is safe

- Including a safety alert
- Including coaching and support

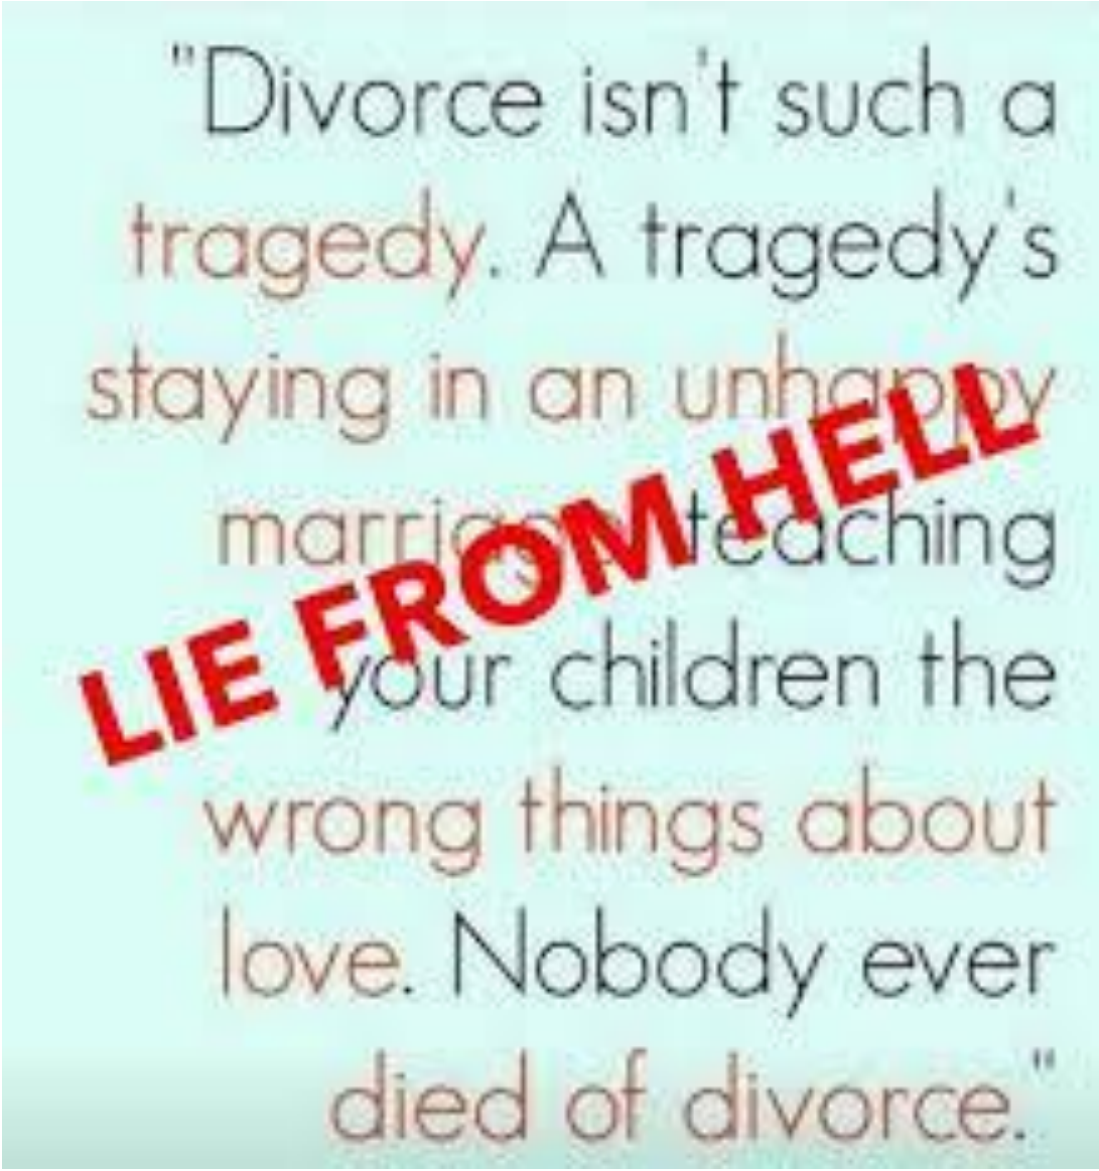
The family court is inundated and children suffer

- 35-55% increased child mortality rate



Making life seem like a bed of roses post marriage

The Social Media Algorithm Attack



"Divorce isn't such a
tragedy. A tragedy's
staying in an unhappy
marriage teaching
your children the
wrong things about
love. Nobody ever
died of divorce."
LIE FROM HELL

300 thousand more children in the UK live in separated families since the emergence of the tik tok in 2018 its doubtful there are 2.4 million abusers so what is going wrong?

Source: Family Resources Survey (FRS); Child Maintenance Service (CMS) and Child Support Agency administrative (CSA) databases.

Financial Year Ending	Total number of separated families (millions)	Total number of children in separated families (millions)
2018	2.4	3.5
2023	2.4	3.8

Contested Finances: There has been a "significant" spike in acrimony regarding financial disputes, with over 10,300 cases in 2024, attributed to rising living costs.

When divorce happens and its contested lawyers make up to £30,000 and are incentivized to encourage the process

AbIgale

- Abigale an AI matures throughout an individuals life and supports positive relationships encouraging positive corrective behaviours over acrimony
- On engagement with one member of a family AbIgale learns what makes each member of a family tick and supports their personal and relational development
- Abigale starts charitable to support local relationship charities and grows into a commercial force for good

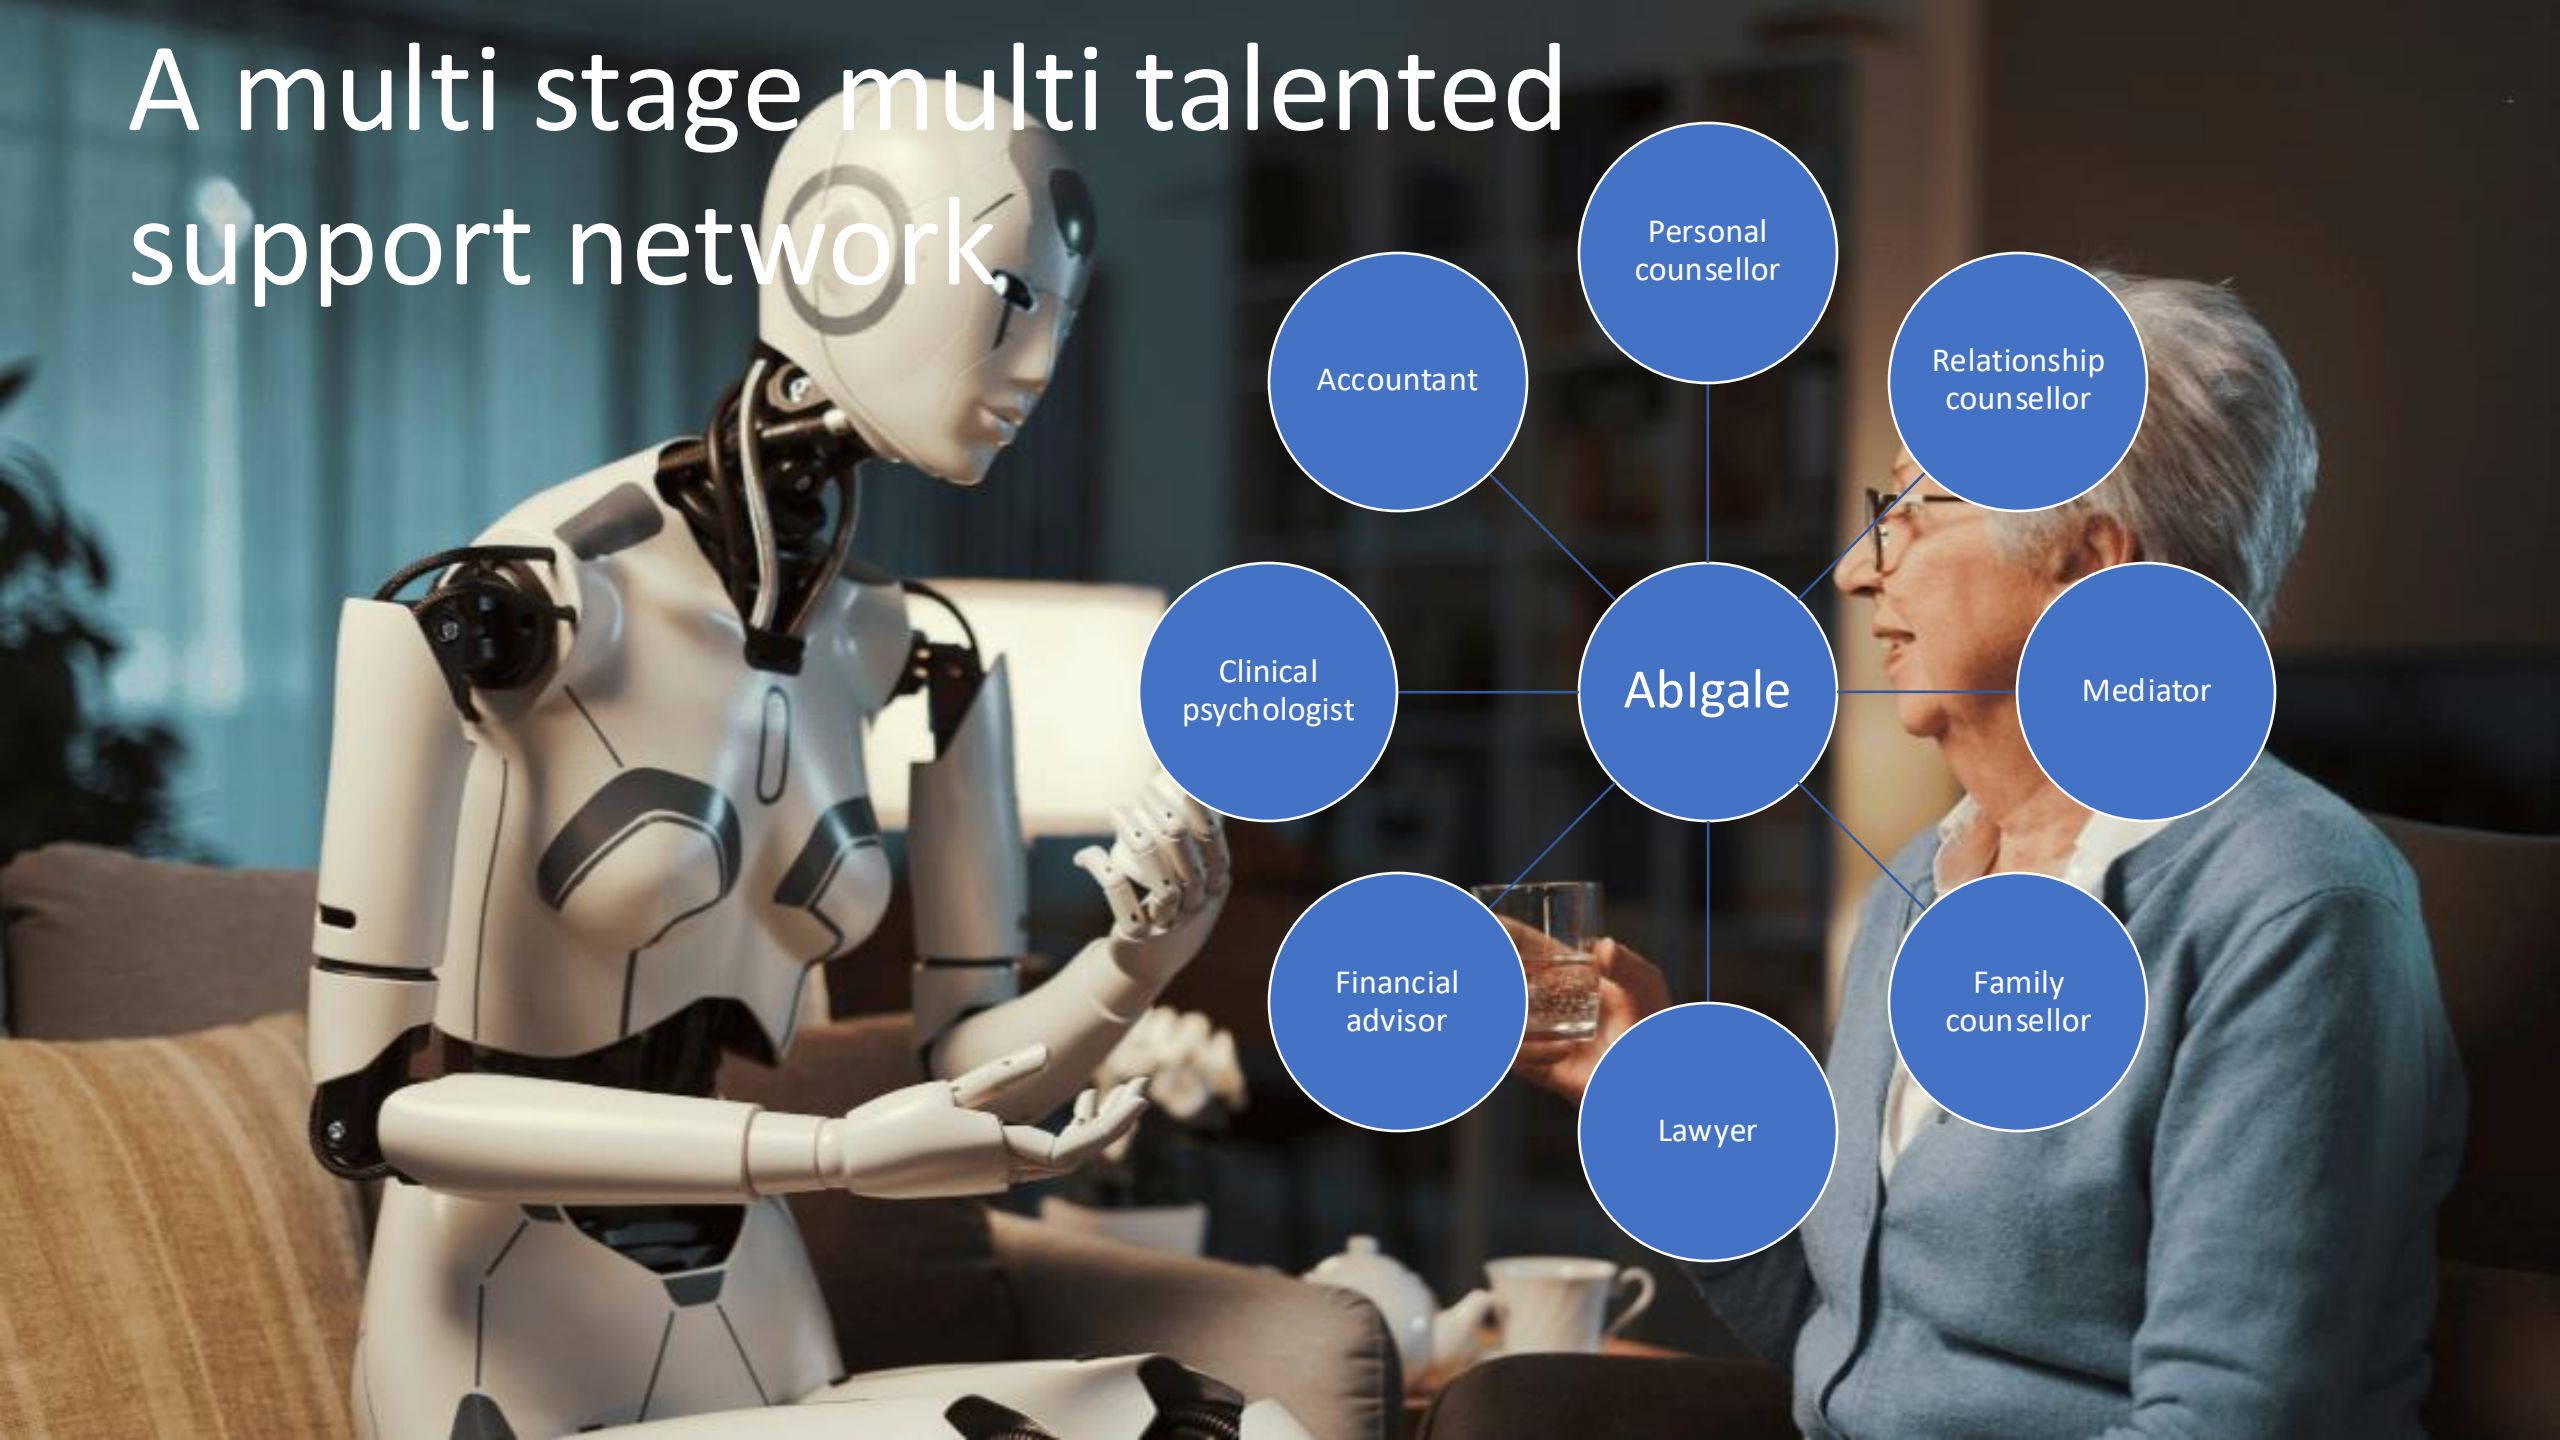
BOTH PARENTS MATTER®

A multi stage multi talented support network



Competitive market ready for disruption

- Relate NI employ 800 counsellors imagine how we could support a world of people through referral and integrated AI support for families with information provided to enhance the insight relationship professionals could provide
- By involving our EME approach with human led organisations we believe we can leverage a balance between AI supported insight for longitudinal input into cases and the acquisition of data not captured during human session
- EME can provide prompts and insight that support reconciliation and reduced conflict via a listening ear with both the individuals and the family best interests at heart

EME – Emotional Matter Expert (AI)

- As humans we get involved we have prior experiences that provide non preventable biases
- Our AI has been trialed with participants and can now coach individuals, couples and adult family members through decision gates designed to reduce hostility and promote understanding redirecting hostility to the AI
- This is the 1st EME tool we are aware of. While AI girlfriends, colleagues and chat bots exist none we are aware of acts as a mediator between humans on relational issues
- Guided by experts in specific fields our platform is based on the principles of positive reinforcement, and Neurolinguistic Programming to enhance positive self talk

Go to Market Strategy

- Our model is planned as a referral model with £20 per month per family referred initially planned via Relate NI
- Channel to market
  - Relationship and Family Application (Relate NI 800 x £20 x 10 per month on full roll out) £1,920,000 ARR
  - Once proven with relate will role out more widely up to 2.4 million separated couples in UK alone.
- EME / AbIgale is the families friend designed to reduce conflict and improve relations through AI taking the brunt of any anger at relationship breakdown and channelling it towards understanding and good.

Our team – Diverse insight on a complex topic of EME

Assumptions & Risks

List of Critical Assumptions	What is the negative impact?	How you have mitigated?
Relate NI or other firms will not refer the platform	**Isnt a valid commercial platform via the referral model**	**Look at secondary direct to market play**
No one will use the platform during points of relationship breakdown	Isnt a sustainable service if isn't used at points relationships need support	Develop EME, LME, FME to provide comprehensive low cost support
The platform does no good for the relationship/ doesn't redirect anger on breakdown	The platform wouldn't be sustainable	Integration with wider network ensures engagement and as people learn what to share directly and with the app they will train better behaviours
The platform doesn't provide valid insight to the professional	The platform wont be referred by professionals sustainably	Summary feedback to the psychologist, psychiatrist or counsellor should be concise and support in provision of advice

Growth towards a global market

- Acquisition
  - By public services to reduce costs
  - By law firms and or those who see what we do as disruptive
  - By those who support our cause for Sociological reasons
- IPO
  - Gaining support as lovable did

Summary EME (An AI driven Emotional Matter Expert)

- Over 100,000 families in England and Wales are affected by divorce each year, with roughly 42% of marriages predicted to end in divorce
- A deep market of 10,300 cases per annum at £30,000 cost per case
- A post separation market of 3.8 million children in 2.4 million families
